This master's program is for both elementary and secondary teachers P-12. The Bilingual Education program uses only the Spanish and English languages and the Hispanic and Anglo cultures. It requires a student to be bilingual in Spanish and English prior to entering the program. The ESL program uses primarily the Spanish language for examples but is applicable to all non-English languages. It does not require a student to be bilingual. Completion of the Bilingual and/or ESL program does not qualify the candidate for state certification. However, these courses may be used toward certification renewal or endorsement.
